

# Options:

## 30 gallon Expansion Tank

Increases nitrogen output and reduces inflation times. Designed for facilities servicing a large percentage of Pick-Up Trucks, SUV's or other vehicles equipped with large, voluminous tires.

## Caster Upgrade Kit

Adds stability and eases mobility by increasing caster diameter and unit "foot-print".

## 12 Volt Power Option

The E-170 is also available in a 12 Volt power configuration. Order an E-170 with this option and power it from any standard 12 Volt vehicle battery. Unit power cord is equipped with "Alligator Clips" to permit quick under-hood attachment to vehicle battery.
