

Deflating Labor Times

NitroFill™ states that their new Automatic Multiple Tire Inflation System can simultaneously inflate or deflate up to 6 tires with the touch of a single button. According to the company, additional features include:

- The ability to cut labor times by up to 90 percent, as it takes 8 to 10 minutes to complete a job, without having to lift a vehicle or remove tires.
- Checks and corrects pressure instantly.
- Can be programmed to fill tires from 3 to 145 PSI.
- Adjustable purge cycles help ensure nitrogen purity levels.
- Comes with four 26' hoses, self-locking chucks, a rechargeable long-life battery, a back-lit analog screen with graphic and audible indicators and a micro-processor to ensure accuracy within 0.3 PSI.
